

**TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE**

FISCAL NOTE

HB 699 - SB 997

February 27, 2019

SUMMARY OF BILL: Establishes the Tennessee Plane Coordinate System (TPCS) as the system of defining and stating geographic positions and locations in Tennessee. Requires the TPCS be recognized and utilized as the sole system after December 31, 2022.

ESTIMATED FISCAL IMPACT:

NOT SIGNIFICANT

Assumptions:

- The most recent system of plane coordinates established by the National Geodetic Survey, based on the National Spatial Reference System, is the State Plane Coordinate System.
- Pursuant to Tenn. Code Ann. § 66-6-101, the Tennessee Coordinate System of 1983 is recognized and utilized, which was established by the same organization.
- Any additional workload to the Department of Transportation in transitioning to the TPCS as the sole system of defining and stating geographical positions and locations after December 31, 2022, can be accomplished with current resources and personnel; therefore, there will not be a significant impact on state expenditures.

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink that reads "Krista Lee Carsner".
